WHILE YOUR CHILD WORKS

- The categories overlap and children notice. A cow is domestic AND eats plants; a dog is a pet AND domestic. Answer one question at a time and say which category you are asking about.
- Frog and duck are the debatable ones in the last exercise. Both spend part of their lives in water, so both are correct - but a child who leaves them out has reasoned, not guessed.
- Animal young are pure vocabulary and respond well to short, spaced practice - two minutes on three or four days beats twenty minutes once.
